There is only one path which has enough bamboo for the dad panda to eat and to meet the mum panda but this route has a dangerous section. There are people chopping down the bamboo! In this game, the panda cannot go through the trees or the caves. Find the path and when the panda reaches danger, roll a dice. If you roll a 1, 3 or 6 the panda can pass through and they will meet, hopefully to have a baby. If you roll a 2, 4 or 5 then the panda will have to go back and try again another time.
