

Challenges

Covid-19 has exacerbated challenges for the teachers visiting our sites with their groups.

To find the right changes that would meet teacher needs better, we started to put the jigsaw pieces together.

Changes

On-site sessions

ZooDLE resources

Virtual sessions

Self-led visits and activities

Outreach to you

Potential impact

- Initial findings show reduced geographical and financial barriers, reaching across the globe and engaging schools we hadn't historically.
- Evaluating the spiral of learning and multiple interactions over time will take time.
- Baselines and plans are in place and we want to collaborate...so, if you are using multiple interactions over the year and ideally over several years, with any type of audience, please get in touch!
