

# ¡Bienvenidos al zoo de Edimburgo!

## Tarjetas Animales

Start at the flamingos.

Roll dice to move around the board.

If you land on any square that does not have a cross, pick up an animal card. You are visiting this animal!

If you answer the question correctly, move forward one space and keep this card. If you get the question wrong, move back one space and put the card back on the bottom of the pile.

If you land on the squares with crosses then you don't need to pick up a card.

The person who reaches the gates to leave the zoo with the highest number of cards is the winner. You visited and learned about the most animals!
