

¡Bienvenidos al zoo de Edimburgo!

Answers

This game was designed by the 2021-2022 S4 Spanish Employability Group, Musselburgh Grammar School, East Lothian, Scotland

This project is part of the Beyond the Panda 'Giants' programme linking Spanish and Mandarin learning. Find out more about 'Giants' at beyondthepanda.org.uk

Beyond the Panda partners:

'Two true and one false statement' questions:

The true statements are written below.

el agutí

The false statement is C.

Agouti's can swim really well.

la cebra

The false statement is C.

Each zebra's stripes are unique, like fingerprints.

la cigüeña negra

The false statement is B.

Both the male and the female stork incubate the eggs.

el flamenco

The false statement is A.

Flamingos can fly.

el guacamayo

The false statement is C.

Macaw's can live up to 50 years.

el león

The false statement is A.

The Asiatic lion is smaller than the African lion.

el oso hormiguero gigante

The false statement is C.

Giant anteaters only have one baby at a time. It has never been known for a giant anteater to even have twins.

el panda gigante

The false statement is B.

Giant pandas mainly eat bamboo but can eat some other foods and eat a little meat in the wild.

el panda rojo

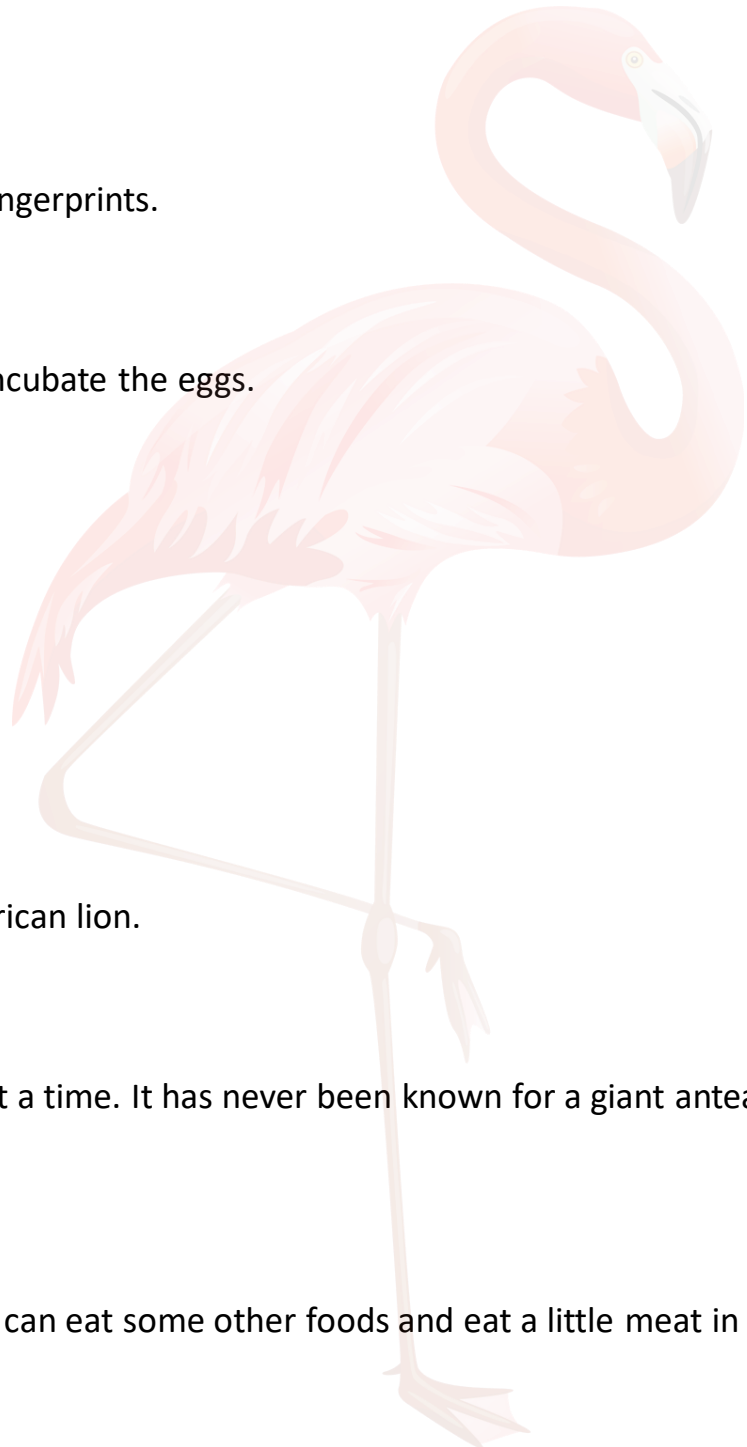

The false statement is A.

Red pandas are not in the same family as giant pandas. Giant pandas are bears. Red pandas are in a family all by themselves. However, they do share some similarities to the giant panda like the overgrown wrist bone.

el lémur de cola anillada

The false statement is B.

Ring tailed lemur's cannot grip with their tail.

True or false questions:

The sentences on the following cards are all true:

el armadillo peludo

el caballo de przewalski

el mono capuchino

el chimpancé

el koala

el mono ardilla

el nutria

el rinoceronte indio

la suricata

el ualabí

The sentences on these animal cards are false:

The true sentences are written below.

el ajolote

The axolotl is an amphibian.

el gibón

Gibbons are very vocal and can be heard making a range of noises that are often described as a song.

la jirafa

Giraffe tongues can be about 50cm long.

el perezoso

The sentence on the card is false.

Sloths spend nearly all their time in the trees. They usually only come down to the ground to go to the toilet.

Multiple choice questions:

el armadillo

The correct answer is A. All species of armadillo are found in Central and South America. One species, the nine banded armadillo, is also found in North America.

el casuario

The correct answer is A. The cassowary mainly eats fruits but can eat some small animals like insects, small rodents and chicks.

el lémur

The correct answer is C. Lemurs are only found in Madagascar.

el oso malayo

The correct species is the sun bear. It is also called the Malayan bear.

el pingüino

The correct answer is A. Try to find out the names of all the species.

el pingüino papúa

The correct sentence is C. Gentoo penguins will lay 2 eggs at a time. Most of the penguin species lay two eggs and make some form of nest but the emperor and king penguins only lay one egg and carry it on their feet.

la tarantula rosa

The correct answer is B. The Chilean rose tarantula's venom is mainly for helping it digest its prey and would not be able to kill a human.

el tigre

The correct answer is B. The Sumatran tiger is the smallest of the subspecies and the Amur tiger is the largest.

'Giant' extension work:

1. Try to say some simple sentences in Spanish describing the animals. For example, use the sound files about colours on the 'Giants' section of Beyond the Panda and form sentences like – *El panda gigante es blanco y negro.*

2. Learn more about the RZSS 'Giants' programme which looks at two of these animals in more detail – **el oso hormiguero gigante y el panda gigante**. The programme also compares the two different languages in the areas these animals are found. There are lots of games with sound files to learn more about them and the games have Spanish and Mandarin versions - beyondthepanda.org.uk
