

## Numbers

The first person to pick this card says any number.

The second person to pick this card must say the next number, counting up from the number the last person said.

It may have been some time since this card was picked so you will have to remember what number the game has reached!

Each person following continues to say the next number in order.

*...65, 66, 67, 68,...*

## Habitats

The first person to pick this card says the name of any habitat.

The second person to pick this card must say another habitat.

Each person following continues to say a different habitat from what has already been said.

## Colours

The first person to pick this card says the first colour in the rainbow spectrum.

The second person to pick this card must say the next colour in the rainbow spectrum.

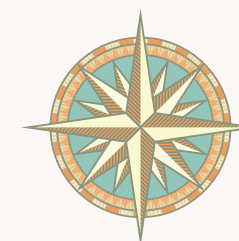

Each person following continues to say the next colour in order.

## Directions

The first person to pick this card says one of the compass points.

The second person to pick this card must say the next compass point in clockwise order.

Each person following continues to say the next compass point in clockwise order.
