

Facts about polar bears....

- They live in the Arctic.
- They have black skin and although their fur appears white, but their fur is actually transparent (see through).
- They are born with pink tongues. As they age, their tongues become mottled with black. Which can make the tongue appear blue.
- It is the largest carnivore (meat eater) that lives on land and seals make up most of their diet.
- They spend most of their time at sea.
- They keep warm thanks to nearly 10cm of blubber under the skin.
- They have an excellent sense of smell and can smell a seals nearly a mile away (1.6 km).
- They can reach speeds up to 40 kph (25 mph) on land and 10 kph (6 mph) in water.
