

Beyond the
Panda 熊猫后续

RZSS
THE WILDLIFE CONSERVATION CHARITY

Nursery outreach

Beyond the Panda offers a free nursery outreach session for pre-school pupils. It is available throughout Scotland but it does have to be booked along with some of our other primary sessions as it is not practical to deliver the nursery programme on its own.

Panda puppet story 熊猫木偶戏

Max numbers: 16 (see note below about larger class sizes*)

Time: 30 – 45 minutes

A panda puppet helps introduce some facts about the giant panda and its diet. This is followed by four activity stations and then a giant panda number story. The stations include:

- Touch pots including fur, teeth, claw, nose, and bamboo;
- Matching colours game;
- Matching numbers game;
- Matching lifecycle game showing the differences between the lifecycle of a bird and the lifecycle of a giant panda.

*It is advisable to split larger classes into two or three groups as appropriate. There are four activity stations which work well with 2-4 children at each station.
