

## Les nombres

All answers to be in French.

The first person to pick this card says any number.

The second person to pick this card must say the next number, counting up from the number the last person said.

Each person following continues to say the next number in order.

*...65, 66, 67, 68,...*

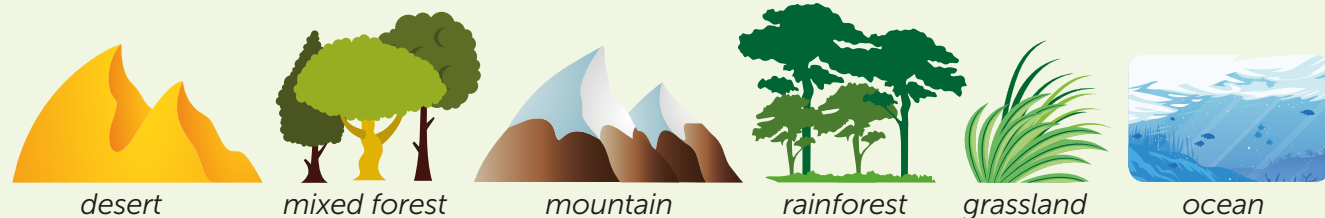

## Les habitats

All answers to be in French.

The first person to pick this card says the name of the first habitat pictured below.

The second person to pick this card must say the second habitat pictured below.

Each person following continues to say the next habitat in the order provided.

Note: If all six pictured habitats have been answered, try to name some different types of habitat.

## Les couleurs

All answers to be in French.

The first person to pick this card says the first colour in the rainbow spectrum - red.

The second person to pick this card must say the next colour in the rainbow spectrum.

Each person following continues to say the next colour in order.

Note: If all seven colours of the rainbow have been answered, try to name some different colours.

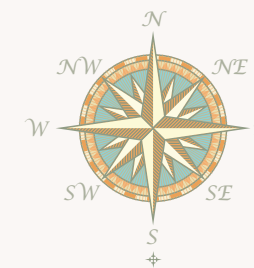

## Les directions

All answers to be in French.

The first person to pick this card says one of the compass points.

The second person to pick this card must say the next compass point in clockwise order.

Each person following continues to say the next compass point in clockwise order.

Note: If all eight compass points have been answered, try to name some different directions words. For example, up, down, across etc.
