

Make your own Giraffe tracks

Materials:

Sponge, sharpie pen, scissors, printer

Instructions:

Step 1: Print out this sheet and cut out the black giraffe footprint above, leaving you with the black wedges.

Step 2: Place each side of the hoof on your sponge and use the pen to trace around them. (Make sure you leave a little gap between them)

Step 3: Use the scissors to cut the sponge around the footprint so that hoofs are raised up from the rest of the sponge. The trickiest part is in between the hoof prints. Get help if you need!

Step 4: Adventures await! You can paint the raised sponge hoofs to make your own multi colour tracks on paper, or maybe you can take it outside to make some prints in the sand or dirt.

Step 5: Make sure you share your adventures with us on social media #giraffeabouttown
