

This game was designed by the 2023-2024, S4- S6 Senior Phase German students, Beeslack High School, Penicuik, Midlothian.

Giraffe necks & Tiger tails - How to Play

Downloads required – Giraffe necks & Tiger tails gameboard; question and fact cards.

Other requirements – dice and counters

This game is based on snakes and ladders.

Start at square number 1 and roll the dice. Move the number of squares shown on the dice.

If you land on a giraffe neck, you go up the board.

If you land on a tiger tail, you go down the board.

If you land on a question card square, pick one of the question cards. If you get the answer correct, move on one square. If you answer incorrectly, miss a turn. The questions are all about colours so that you can practise your colours in German.

If you land on a fact card square, pick one of the fact cards. You will then learn a fact about one of the animals at Edinburgh Zoo!

Translations:

Welche Farbe hat ...?

What colour is ...?

Welche Farben hat ...?

What colour is ...? – *when more than one colour*
